

## Prepare to take the next step toward the top of the engineering leadership ranks with the help of SWE's Executive Leadership Program.

eXxec is the Society of Women Engineers' Executive Leadership Program. It is a safe, personal, and engaging leadership development experience created to empower engineers to effect positive change within their organization through a holistic approach.

Strategic leaders must not get consumed by the operational and tactical side of their work. They have a duty to find time to shape the future.

Help shape the future for women in engineering by creating change from the top, down in your organization.

### EXXEC WILL HELP YOUR ORGANIZATION:

- Strengthen and build an inclusive leadership pipeline
- Reach your learning and development goals to continue to be a high-performing company
- Keep pace with the next generation of engineers

### REGISTRATION INCLUDES:

- Hotel room and meals
- FIRO-B Assessment
- 60-Minute FIRO-B Virtual Coaching Session
- Invitation to SWE's Executive Luncheon at WE25
- Wellness Event
- Professional Headshot
- A Year Membership to SWE
- Peer Networking Activities and Resources

**Total Cost: \$6,950**

Learn to deliver actionable, high-performance strategies in three leadership pillars:

## LEADING SELF

### Live Session

#### ***Leading Self***

led by Kathryn Mayer

Identify how to actively leverage strengths, manage professional development, and obtain support for innovative ideas and strategies.

## LEADING PEOPLE

### Live Sessions

#### ***Leading People***

led by Terra Winston, Leadership Consultant and Executive Coach

Recognize best practices for team effectiveness and techniques for leading through relationships while leveraging diversity, building trust, active listening, and finding common ground.

## LEADING CHANGE

### Live Sessions

#### ***Change Management Strategies,***

led by Rose Hollister, MSOD, MED

Develop new insights that question conventional approaches to lead innovative changes.

### **eXXec Facilitator**

***Dr. Kim Warren Martin***
